A highly skilled ISO Consultant/Auditor with experience in IT audits and application controls. Proficient in performing code reviews and ensuring robust IT governance and compliance. With a background in both application support and web development, I bring a strong technical foundation and a keen eye for detail, making me well-suited to lead and support technology audit projects. Seeking to contribute my expertise to Goldman Sachs by driving efficiency and compliance in technology processes.

Experience

ISO Consultant/Auditor

Shamkris Group — August 2024 - Present

- Conducted ISO audits, ensuring adherence to international standards.
- Provided consultancy services, guiding clients through the implementation and maintenance of quality management systems.
- Collaborated with teams to drive continual improvement initiatives.

Application Support Intern

Mobicule Technologies — January 2024 - July 2024

- Delivered technical support for enterprise applications, resolving issues promptly to ensure uninterrupted service.
- Assisted in software maintenance, optimizing application performance and user experience.
- Documented troubleshooting processes and solutions for future reference.

Web Developer Intern

Jio — October 2023 - December 2023

- Developed and maintained responsive web applications, improving user interfaces and experience.
- Collaborated with cross-functional teams to ensure timely project delivery.
- Utilized front-end technologies to enhance website functionality and design.
